Acknowledgement of Country

I would like to begin today by acknowledging the Traditional Custodians of the many lands that we are gathered on.

Specifically, I would like to respectfully acknowledge the Dja Dja Wurrung people of the Kulin Nation. I would also like to acknowledge the Traditional Custodians of the lands which each of you are living, learning and working from.

I pay my respects to Elders past and present and extend that respect to any Aboriginal or Torres Strait Islander people here with us today.

Unwavering commitment to our customers

Our proactive approach

Economic conditions

Cost of living pressures

- Stubbornly high inflation continues to challenge household budgets
- Consumer confidence remains very low despite the stage 3 tax cuts and targeted budget support
- Housing affordability has deteriorated further

Economic resilience

- Business sentiment is resilient despite economic uncertainty and uneven conditions by region
- Service exports and rural commodity prices reflect strong demand from overseas
- Household balance sheets supported by property values, robust labour markets and recent fiscal policy

Unemployment

- Unemployment rate expected to rise gradually towards 4.5 per cent
- Job vacancies and advertisements continue to ease from recent peak but are still higher than pre-pandemic levels
- RBA rate cuts are likely in early to mid 2025

Mortgage Help Centre

- Key purpose is to keep customers in their homes
- Hardship requests driven by cost-of-living pressures, reflected in a marginal increase in call volumes with more complex enquiries.
- Mortgage arrears increasing though remaining lower than industry average

Fixed rate retention

- Largest tranche fixed rate maturities expired June 24, \$5.9b in FY25
- Retention remains at high levels
- NPS remains strong¹

Caring for our community

- Blocked \$34.4m in fraud or scam transactions
- \$40.3m invested back into communities²
- 23 Community Bank companies certified as social enterprises³
- Participated in a \$195m Sustainability Linked Loan facility to La Trobe University
- Executed our first nature and biodiversity risk assessment pilot
- All sites where the Bank has accountability are powered by renewables

FY24 results

Andrew Morgan – Chief Financial Officer

Financial and operating performance

Full year results reflect weaker 1H result, with positive momentum in 2H24

	FY24 (\$m)	FY23 (\$m)	FY24 v FY23	2H24 v 1H24
Total income	1,954.2	1,932.8	1.1%	4.2%
Operating expenses	1,122.8	1,061.2	5.8%	3.1%
Operating performance	831.4	871.6	(4.6%)	5.7%
Credit expenses	9.9	33.6	↓ large	↓ large
Cash earnings (after tax)	562.0	576.9	(2.6%)	9.5%
Statutory net profit (after tax)	545.0	497.0	9.7%	(6.9%)

Key points – full year

- Income impacted by higher liquids, and lower lending growth in the first half
- Operating expense reflects investment in growth engines
- Credit expenses reduced, with large non-recurring specific charge in prior year

Cash earnings vs Statutory NPAT

Adjustments – Full Year

	FY24 (\$m)	FY23 (\$m)	FY24 v FY23 (%)
Cash earnings after tax	562.0	576.9	(2.6%)

- Elders contract termination	(11.8)	-	
- Restructure costs	(51.8)	(27.4)	
- Other items	(13.5)	(46.8)	
Statutory NPAT	545.0	497.0	9.7%

FY24 adjustments

- Includes restructure costs, revaluation (unrealised) gain net of funding costs and realised income
- Exited relationship agreement with Elders as disclosed on 12 December 2023
- Includes significant restructures of Business and Agribusiness and Customer Enablement divisions
- Includes amortisation of acquired intangibles, fair value adjustments and acquisition costs

Overview of key 2H24 financials

Positive momentum in 2H24, and disciplined execution

Balance sheet		2H24
Total lending	\$80.8b	+3.3%
Residential Lending¹	\$60.4b	+3.2%
Liquids	\$13.5b	-23.6%
Customer deposits	\$68.3b	flat

Household deposits: lending ratio²	73%	flat
Liquidity (LCR)³	137.8%	-13.6pp

P&L		2H24
Net interest income	\$852.6m	+4.8%
Operating expenses <i>(ex investment spend)</i>	\$521.7m	+2.7%
Cash earnings	\$293.8m	+9.5%
NIM (normalised)	1.94%	+11bps
FTE	4,777	+2.0%

Profit metrics		2H24
Return on equity	8.54%	+72bps
Cost to income ratio	57.2%	-60bps

Note: Comparisons shown are to 1H24 results

1. Residential Lending by purpose (refer to page 56 of the Annual Report for further detail)

2. APRA Monthly Authorised Deposit-Taking Institution Statistics June 2024. Ratio calculated as deposits by households divided by loans to households columns (owner-occupied, investment, credit cards and other)

3. LCR represents June 2024 quarterly average

Total income

Lower average assets buoyed by improved margin

Income callouts:

- Growth mostly driven by improved NII, with 11bps margin improvement partly offset by AIEA contraction mainly in liquids, reflecting repayment of TFF.
- Growth in Homesafe income benefited from a higher volume of completed contracts

Key considerations:

- Net interest income to benefit from less elevated levels of liquids
- Homesafe in run-off from 1 Jul 24; income will reduce over time subject to the rate of completions

Note: Other income breakdown is prepared on a cash basis

1. Half on half average balances vs prior half. Residential lending is net of offset accounts. Portfolio Funding assets are included in the average balance growth segmented across Residential, Business & Agribusiness and Liquids

2. Based on 2H24 Normalised NIM. Refer to page 21 for further detail.

3. Homesafe realised income before tax. Realised funding costs recognised in net interest income

Net interest margin

Result mostly reflects benefit of replicating portfolios and lending/deposits mix

Key considerations for FY25:

- Cash rate expected to remain stable into next calendar year
- Benefit from replicating portfolio to continue, at slightly reduced levels to FY24
- Fixed to variable rate conversions to be less than prior half
- Competitive intensity stabilising

NIM quarterly movement (%)¹

Note: NIM is calculated on a cash basis (cash net interest income divided by average interest earnings assets)

1. Cash quarterly NIM on a post revenue share basis

2. Dec-23 Cash Quarterly NIM has been restated to 1.85% (previously disclosed as 1.83%)

3. Mar-24 and Jun-24 Cash Quarterly NIM has been normalised for the correction to accounting treatment of origination fees and Agribusiness interest income from loans in arrears

Residential lending

Diversified channels; strong retention

- Total portfolio up 3.2% on prior half (1.2x system)
- 2H24 settlements up 19%, with all channels growing
- Continued strong growth in digital mortgage settlements representing 19.3% of total settlements
- Total broker settlements up 15% on prior half which includes the new Bendigo Lending platform
- Retention of fixed rate maturities continues to improve

Residential lending settlements¹

Loans to Households² versus System (HoH annualised)

Residential lending portfolio Fixed rate maturities (\$b)

1. Up and BEN Express included within Retail channel. Qantas Money Home Loans and Tiimely portfolio included in TPB (Third Party Banking). Settlements in digital channels consists of loans originated through BEN Express, Up, Qantas Money Home Loans and Tiimely brand

2. Loans to Households is the sum of Owner Occupied, Investment, Credit Cards and Other as reported in the APRA Statistics.

Strength of deposit franchise

Branch network provides stable funding source

- Proprietary and Community Bank branch networks remain a critical and stable source of deposit funding
- Digital deposits increasing off a low base – up 57% YOY and up 26% on prior half – improved BEN eBanking functionality; ongoing customer growth via Up
- Improved deposit mix over 2H24 with increase in savings accounts and slower decline in transaction accounts
- Household deposit to loan ratio stable at 73% (up 4pp on FY23), which is 9% higher than system¹

APRA household deposit/loan ratio¹

Customer deposits - by type²

Customer deposits - by channel³

1. Source APRA Monthly Authorised Deposit-taking Institution Statistics June 2024. Ratio calculated as deposits by households divided by loans to households columns (owner-occupied, investment, credit cards and other)

2. Historical Transaction and Savings accounts have been restated to include only deposits which are non-rate sensitive (further details on page 60)

3. Jun-23 & Dec-23 recalculated due to minor restating between Community and Proprietary branches

Operating expenses

Cost and productivity benefits keeping cost growth below inflation

Key considerations:

FY25

- Inflation pressures to abate but remain elevated through next year
- Targeting to limit business as usual expenses¹ to no higher than inflation through the cycle
- Committed to further work to reduce cost to income ratio towards 50%

Investment spend

- Ongoing investment in Business & Agri, rollout of Bendigo Lending platform and digital deposit gathering
- Expect FY25 and FY26 cash investment spend to be \$30-40m higher than FY24 levels, with circa two thirds booked as opex

1. Business As Usual expenses exclude investment spend and other large abnormal items such as remediation expenses booked in the half

Credit quality

Credit metrics remain sound

Credit expense (\$m)¹

■ Collective provision ■ Specific provision

Gross Impaired Loans (\$m)²

Loan arrears³

— Residential 90d+ — Business 90d+ — Agribusiness 90d+

1. Specific provision is net of bad debts written off and recoveries

2. Revised internal policy definition for restructured loans in the Business and Agribusiness portfolio (refer to page 31 of the Annual Report 2024)

3. Arrears include impaired assets and all arrangements. Agribusiness arrears has been updated to include impaired assets to align to the measurement of arrears for the other portfolios.

Funding and liquidity

Stable and diversified funding sources

- Strength of customer deposit franchise demonstrated by 76.2% of customer deposits to total funding ratio
- Net +\$12b of funding from Community Bank network
- Funding and liquidity ratios well positioned
- Financing via RBA Term Funding Facility (TFF) has been fully repaid

Funding profile (\$b)

Term funding maturity profile (\$m)^{1,2}

1. Subordinated debt maturity refers to legal final maturity date
 2. Non-AUD exposures represented as AUD equivalent on swapped basis as at time of issuance

Capital and dividends

Capital position remains strong and well managed

- Organic capital generation over the half reflects ongoing disciplined usage of capital
- Final dividend of 33cps fully franked, up 3.1% on FY23 final dividend and 2H24 payout ratio of 63.6%
- Shares issued via Dividend Reinvestment Plan (DRP) to be neutralised for 4th consecutive half
- Intend to use some surplus capital for investment spend as flagged at May 2024 Investor Day

¹ CET1 capital excludes unrealised Homesafe revaluation revenue from retained earnings, along with earnings from certain other subsidiaries that do not form part of the regulated Level 2 banking group
² Includes movements in other reserves and CET1 deductions

Pathway to achieving target ROE

Continued focus on cost management

Investing in our deposit gathering franchise

Diversifying our balance sheet with the rebuild of our Business and Agribusiness division

Disciplined approach in home lending and taking advantage of multi-channel approach

Homesafe

Summary of performance

- Restructure of Homesafe investments in December 2023:
 - Ceasing funding of new contracts from 30 June 2024
 - Portfolio valued at c.\$1.1b will be in run-off as existing contracts are completed
- Increase in income reflects a greater number and higher value of completed contracts in the period
- Proceeds on contracts completed during FY24 exceeded carrying value by \$7.7m
- Average annual return on completed contracts since inception is 9.6% p.a, pre funding costs
- Property values would need to fall by 46% before any impact on regulatory capital (property revaluation balance is deducted from retained earnings).

Community Bank

How the revenue share works

Note: Community Bank footings include residential loans, business loans, credit cards, margin loans, at call accounts, term deposits. FTP is not used across all products

1. FTP = Funds Transfer Pricing. FTP methodology is independently audited

2. Dividend calculation is subject to terms and conditions

Community Bank

'Profit with purpose' model

Aims:

- To secure branch banking services for participating communities
- To empower and build confidence and capacity within local communities
- To enable participating communities to share in revenue generated from their local Community Bank, as well as offering the potential for shareholders to receive dividends

Providing benefits to BEN:

- Community Banks provide **net benefit of ~\$12b² of additional funds**, which reduces need for more expensive wholesale funding
- Net funding benefit equates to **12 to 15 bps of NIM**

Community Bank footings (\$b)¹

Community Bank branches are a significant source of customer deposits for the broader Group, increasing \$2.7b in FY24.

Investments have supported vital community infrastructure and critical local sporting, education, health, arts and cultural initiatives

1. Community Bank footings include Private Franchises (4 branches in total). Loans and deposits includes total lending and all deposits in Community Banks from both personal and business customers. Some products don't use FTP and utilise a fee or commission structure
2. The Community Bank net benefit excludes ~\$2b of deposits held with Sandhurst Trustees

Community Bank impact

Driving positive social and economic outcomes in communities across Australia

\$40.3 million invested back into communities through our community bank network ¹

1. \$40.3 million in FY24 and \$366 million since the inception of model in 1998. FY24 figure subject to limited independent assurance by EY
 2. Data reflects FY23 data that was collected in FY24, as Community Bank data is collected in October each year

Investment spend

Continuing to invest for long-term simplification benefits

Top 5 projects by spend:

- Digital Lending Platform (Foundational Technology)
- Up Digital Bank (Growth and Productivity)
- Cloud Data Enablement (Foundational Technology)
- Enterprise Release (Foundational Technology)
- eID – Customer Identity Migration (Foundational Technology)

Capitalised software balance (\$m)²

1. Investment spend reclassified to exclude non-cash items

2. Capitalised software balance includes software under development

3. Investment spend expensed % (cash basis) calculated as expensed investment spend (cash basis) as a percentage of total investment spend (cash basis)

Arrears

Important Information

This document is a presentation of general background information about the Group's activities current at the date of the presentation. It is information in a summary form and no representation or warranty is made as to the accuracy, completeness or reliability of the information. It is to be read in conjunction with the Bank's full year results filed with the Australian Securities Exchange on **26 August 2024** and the Bank's other periodic and continuous disclosure announcements. It is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. These should be considered, with or without professional advice, when deciding if an investment is appropriate.

This presentation may contain certain "forward-looking statements". The words "anticipate", "believe", "expect", "project", "forecast", "estimate", "likely", "intend", "should", "could", "may", "will", "target", "plan", "outlook" and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings and financial position, capital adequacy, distributions, risk management, sustainability related objectives and targets and performance are also forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Group, its officers, employees, agents and advisors, that may cause actual results to differ materially from those expressed or implied in such statements. There can be no assurance that actual outcomes will not differ materially from these statements. Caution is required in placing any reliance on any forward-looking statements in light of current economic and geo-political uncertainties including impacts arising from the Russia-Ukraine war. Forward-looking statements may also be made, whether verbally or in writing, by members of Group's management or Board in connection with this presentation. Such statements are subject to the same limitations, uncertainties, assumptions and disclaimers set out in this presentation. Such forward-looking statements only speak as of the date of this presentation and the Group assumes no obligation to update such information.

This presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States or in any other jurisdiction in which such an offer would be illegal.

Readers should note that certain financial measures included in this presentation are "non-IFRS financial information" under ASIC Regulatory Guide 230: "Disclosing non-IFRS financial information" published by ASIC and/or "non-GAAP financial measures" under Regulation G of the U.S. Securities Exchange Act of 1934, as amended. The discussion and analysis discloses the net profit after tax on both a 'statutory basis' and a 'cash basis'. The statutory basis is prepared in accordance with the Corporations Act 2001 and the Australian Accounting Standards, which comply with International Financial Reporting Standards (IFRS). The cash basis is used by management to present a clear view of the Group's underlying operating results, excluding a number of items that are deemed to be outside of our core activities and such items are not considered to be representative of the Group's ongoing financial performance. Refer to the Appendix 4E for reconciliation to statutory profit. Although the Group believes this non-IFRS/non-GAAP financial measure provides useful information to users in measuring the financial performance and condition of its business, readers should not place undue reliance on any non-IFRS/non-GAAP financial measures included in the presentation.
